FEATURES | SERVICES | INNOVATION | DESIGN

Aluminium Pressure Die Casting Wheel for longer durability Exquisitely design to give extremely smooth movement.

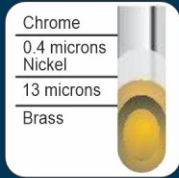

Delivers the material at your door step

Nano coating AJEET Bath fittings are nano coated this non-stick water repellent coating renders the surface durable and highly repellent to dirt particles, resulting in less dirt deposit and staining. this help in easy cleaning of grease, oil, lime and materials from environmental pollution.

Free Estimate Assistance

Longer Durability of chromium plating with a minimum of 13 microns for nickels and 0.4 microns for chrome unmatched in the industries.

Expert Advice

Environment Friendly
AJEET Bath fittings have an Antibacterial coating on the inner side so that even if some water drop stay behind there won't be any bacteria formation in these water droplets.

Installation Assistance

Every Piece is Fully Tested
